Jeff Sossoman
Carolina Fire Control
300 Manor Avenue Southwest
Concord, NC 28025-5714

Please receive this as a letter of recommendation for the work and services of Carolina Fire Control. Your firm did the entire fire protection installation on our 350,000 square foot facility when it was built in 1991. In addition, you have serviced, inspected, maintained, and done numerous upgrades and modifications over the past 20 years. All of this work has been professional, timely, and of the highest quality.

We have been so satisfied with your work and service, we have used your firm exclusively to install fire protection on two subsequent facilities in North Carolina, both in excess of 150,000 square feet. We have also been very satisfied with both of these installations.

If anyone has questions, please feel free to call.
